ANTIC was founded on the philosophy that the best underwriting of real estate transactions is performed by the most experienced local people. As a result, ANTIC does not have direct operations, instead Title insurance is written exclusively through local Title agents. ANTIC's web platform allows Title agents to be more efficient while ANTIC can focus on hiring the best industry staff to provide timely underwriting support. ANTIC's stringent agent approval process has resulted in one of the best agent portfolios in the industry. Focus on properly identifying risk in all areas of operation from underwriting to agency support to investments and the corresponding mitigation of those risks help ANTIC navigate through the cyclical challenges of the real estate market.
